Save On IT Costs With Donated Technology for Your 501(c)(3) Nonprofit, Library, or Foundation

Find out how at  **techsoup.org**
the place for nonprofits and libraries

Decades of Empowering Nonprofits and Libraries

Since we started out as a small nonprofit in 1987, TechSoup has grown into a worldwide network with a mission to empower every nonprofit organization on the planet with technology resources and knowledge. Together with our global partners, we've saved more than 225,000 organizations in over 40 countries almost \$20,000 each.

IT Services, Software, and Refurbished Hardware

Our community and resources — including articles, blogs, webinars, and forums led by expert hosts — are free to everyone! Once registered and qualified with TechSoup, 501(c)(3) nonprofits and libraries can access IT consulting services, high-quality refurbished hardware, and full versions of new donated software from partners like Microsoft, Adobe, Cisco, Intuit, and Symantec.

Visit www.techsoup.org to check your eligibility and get started.

Admin fee: \$30 – \$500 |

Not what you need?

WE HAVE OVER 450 HARDWARE AND SOFTWARE PRODUCTS AVAILABLE.

TechSoup is a part of TechSoup Global — a 501(c)(3) nonprofit founded in 1987 on the belief that technology is a powerful enabler for social change. Donated products are available to qualified nonprofits for a small administrative fee. This fee supports our mission to bring technology resources and knowledge to nonprofits around the world.
